

# ARTEK

## Showing and preserving art. ARTEX DISPLAY CASES.

Art comes alive through presentation and illumination - an experience for all senses. ARTEX develops high-quality display cases that meet all aesthetic, safety and conservation approved standards. They therefore guarantee optimal protection and perfect presentation of each exhibited object.

### **Product lines of display cases:**

Full glass display cases. Console display cases. Frame display cases. Wall display cases. Tailor-made display cases.

Our professional team also takes care of the installation and de-installation of the display cases and assumes all maintenance tasks. Our versatile display cases are suitable for permanent exhibitions as well as for sensitive objects in special shows, in monasteries and churches, in public places and private collections.

### Material

Long-term experience in dealing with a multitude of materials and manufacturing techniques makes ARTEX a competent partner for all questions of exhibition technology.

### Microclimate control

Passive, active or combined systems – optionally with defective substance filter or climate control sensors – offer the perfect climate for sensitive objects.

### Safety features and equipment

Sophisticated alarm and sensor systems protect the exhibits from environmental damages and unauthorised access.
